

OBERON

Smart Lighting

FEATURES (CFL)

- Saves 80% energy
- Excellent color rendering
- Specific & confirmed life above 8000 hrs
- PCB boards & components installed by machine
- Ballast used by PBT (Acts as a heat sink)
- Noise and flicker free
- High luminous efficiency
- Specially designed for Nepal (can operate smoothly in fluctuating current)
- Wide range: 3w - 65 watts designed in Singapore (Spiral/U series) (E14/E27/B22) 2700K/6500k

Certificated: EMI, CE, UL, FCC, RoHS and conforming to IEC60968, IEC60969 standard.

Introduction

Explore International is committed to leading edge design and introducing 'SMART LIGHTING SOLUTION' products that set the standard in the industry in terms of performance and reliability. The energy-saving and environmentally friendly products are designed in Singapore with emphasis on quality and value to customers. Presently Explore International has introduced OBERON Brand 2U/3U/4U and spiral series CFL and LED lights in the market and subsequently will launch OBERON'S various array of Smart Lighting products soon.

Color & Mood

ENERGY STAR qualified bulbs are available in a wide variety of shades of white light, ranging from yellowish to white to bluish white light, which allows you to customize the mood of your space. ENERGY STAR qualified bulbs come in "warm" colors to match the yellowish light of incandescent bulbs, but you can also choose "cooler" colors with whiter or bluer light.

Warm light

2700K 3000K

White light

3500K 4100K

Cold light

5000K 6500K

Tips to Save Energy

- Always turn-off power before re-lamping
- Avoid installing lamp by gripping the glass tube
- Do not use with dimmers or electronic timers
- Not suitable for damp surroundings or sealed CANS
- Reliable operating temperature - 5^oc +50^oc
- Risk of electric shock-use in dry locations
- For best result use in proper voltage range as mentioned on lamp base

Applications:

Home, Office, Hotel, Shop, Restaurant, Gold & Jewelry Shop and so on
